# Installation and Registration

Please ensure that **ALL** system prerequisites are met, that your operating system is up to date and that you are using the latest version of I Can Animate for your operating system.

## Windows PC Users

- Ensure you are logged onto your computer as a user with administrator access rights.
- Insert the CD into your computers CD/DVD drive. It should autorun.
- A Setup Window will open, follow the instructions on screen carefully and I Can Animate will install.
- I Can Animate and the electronic manual will be available through your Start menu.

## REGISTER YOUR SOFTWARE USING YOUR SERIAL NUMBER

If you do not register your software it will default back to a trial/demonstration version after a set period of time.

Early versions of I Can Animate require that you;

- Run I Can Animate.
- Click on the I Can Animate *Help* menu and then the *Register Software...* option.
- Enter your serial number and details, and confirm.

I Can Animate is now registered.

I Can Animate version 1.5 and above will prompt you for a serial number on startup if the application has not been registered. Please enter your registration details and confirm. You will need to have admin access rights during this process.

## Mac Users

- Ensure you are logged onto your computer as a user with administrator access rights.
- Insert the CD into your computers CD/DVD drive.
- Double click on the I Can Animate CD icon on your desktop.
- Run the I Can Animate installer package and follow the instructions on screen.

## REGISTER YOUR SOFTWARE USING YOUR SERIAL NUMBER

To register;

- Run I Can Animate.
- Click on the *I Can Animate* menu and then the *Register Software...* option..
- Enter your serial number and details, and confirm.

I Can Animate is now registered.
